

Aquatic Vegetation Summaries

Survey Info

Waterbody: Shafer, Lake
County: White
Acres: 1,291
Survey Date: July 29, 2025
Biologist: District 1
Sampling trophic status: Meso
Secchi Depth (ft): 2.00

Survey Summary

A total of **100** sites were sampled to a maximum depth of **19.5ft**.

Plants were found to a maximum depth of **11.0ft**

A total of **5** species were collected

A total of **5** native species were collected

Overall Coverage **11.0%**

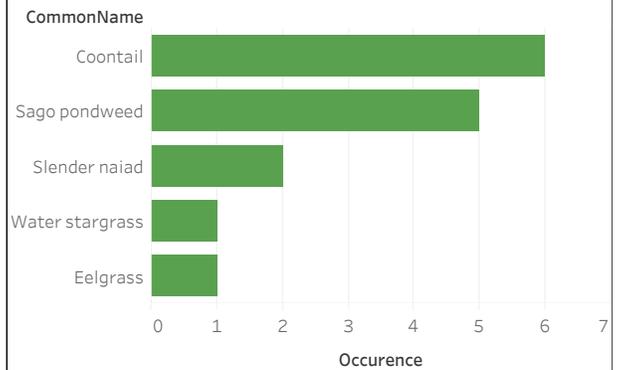

Native Coverage: **11.0%**

Dominance Sum **3.000**

Mean species/site: 0.15

Mean native species/site: 0.15
